			Legal and institutional environment are adequate for the compilation and dissemination of statistics													1. A formal or informal coordination forum exists to bring together GFS compilers, data suppliers, expert users and other key stakeholders at both technical and managerial levels. 2. A full spectrum of relevant existing administrative datasets are available to the GFS compilers for the purpose of GFS compilation, with appropriate disclosure controls applied where commercial or political sensitivities exist.			
			Methodological basis for the statistics follows internationally accepted standards, guidelines or good practices													1. Conceptual adjustments are made where appropriate to account for the differences in the GFSM 2014 relative to the framework used to compile the source dataset (such as IFRS, IPSAS or the national GAAP). 2. The mapping of the source data to the GFSM 2014 taxonomy is reviewed by the statistical authorities at least on an annual basis, to ensure it continues to meet the needs of GFS statistics and new activities are recorded under the appropriate categories.
