A full set of GFS tables for the budgetary subsector of the general government is compiled by the statistical authorities and disseminated at least on an annual basis. 2. A full set of GFS tables for the extrabudgetary and social security fund (if relevant) subsectors of the general government is compiled by the statistical authorities and disseminated on an annual basis. 3. A full set of GFS tables for the public corporations sector is compiled by the statistical authorities and disseminated on an annual basis.		Nov 17 - 21, 2025	McDonagh	
			Source data are adequate for the compilation of these macroeconomic statistics													1. Metadata (or detailed notes, communication from suppliers or similar) are available to identify instances where the conceptual adjustments to the values are required to bridge the source data to the GFSM 2014 framework. 2. The data sources for the budgetary subsector of central government enable the precise mapping of economic flows and stocks to the GFSM 2014 taxonomy, with only isolated exceptions. 3. The data sources for the subsectors of general government (or public sector) other than the budgetary central government enable the precise mapping of economic flows and stocks to the GFSM 2014 taxonomy, with only isolated exceptions.				
			Methodological basis for the statistics follows internationally accepted standards, guidelines or good practices													1. Conceptual adjustments are made where appropriate to account for the differences in the GFSM 2014 relative to the framework used to compile the source dataset (such as IFRS, IPSAS or the national GAAP). 2. The mapping of the source data to the GFSM 2014 taxonomy is reviewed by the statistical authorities at least on an annual basis, to ensure it continues to meet the needs of GFS statistics and new activities are recorded under the appropriate categories.				
Real Sector Statistics	Strengthen compilation and dissemination of real sector statistics-national accounts	Solomon Islands	Improved periodicity, timeliness, and consistency of data.
