A full set of GFS tables for the extrabudgetary and social security fund (if relevant) subsectors of the general government is compiled by the statistical authorities and disseminated on an annual basis. Consolidated general government (or public sector) GFS dataset is compiled by the statistical authorities and disseminated on an annual basis.			McDonagh
			Methodological basis for the statistics follows internationally accepted standards, guidelines or good practices																	Conceptual adjustments are made where appropriate to account for the differences in the GFSM 2014 relative to the framework used to compile the source dataset (such as IFRS, IPSAS or the national GAAP). The mapping of the source data to the GFSM 2014 taxonomy is reviewed by the statistical authorities at least on an annual basis, to ensure it continues to meet the needs of GFS statistics and new activities are recorded under the appropriate categories.			
			Statistical techniques are sound																	Automated consistency checks are embedded within the GFS production systems (including Excel spreadsheets). GFSM 2014 mapping is embedded within the chart of accounts of the financial management information system (FMIS), with no or little manual adjustments required.
